Admissions Excellence and STEM Initiatives

The United States Naval Academy has made significant advances in its strategic marketing, education and outreach programs, in large measure through the exceptional support of corporate and foundation partners of the Naval Academy Foundation. Relationships with organizations including Georgia Power, PSEG, Emerson Electric and Xerox have helped the Academy grow admissions programs in key areas such as Atlanta, Newark, St. Louis and New York, greatly strengthening the performance of underrepresented districts. Key elements of this outreach include admissions counselor travel and visits, Naval Academy Glee Club and Gospel Choir tours and performances, the OPINFO program where area midshipmen return to their communities to increase awareness of the Academy, increased applications and interest by area middle and high schoolers in the Academy's Summer STEM and Summer Seminar programs and connections with high school counselors and other community leaders through the Centers of Influence program, which brings these key individuals to the Academy to learn more about its programs and the opportunities available to their students.
